JUST A DAY AFTER THE QUEEN'S BIRTHDAY, RIHANNA SHARES  
INCREDIBLE PHOTOSHOPPED PICTURES COMBINING THEIR LOOKS

After the news of the Queen's death, Rihanna shared a series of photoshopped images that combined her own features with those of the late monarch. The images show Rihanna with the Queen's iconic features, such as her crown and jewelry, and her own features, such as her face and hair. The images are a tribute to the Queen and a way for Rihanna to express her grief.

RIHANNA'S version of Queen Elizabeth II, with Rihanna's features, is shown in the top right of the photos.
